of navigability**

Front Deck

The key features that really set the Monachus 70 Fly apart from other yachts are the stunningly accentuated 5.8m wide bow and the wise use of exterior space.

- Sunbathing experience with top-quality mattresses.
- Table and benches are the perfect place to relaxing.
- Teak flooring provides a classic and timeless look.

Enjoy the spacious bow area with plenty of room to relax.

Rear Deck

Spacious aft cockpit with teak table, bench and chairs, perfect for outdoor entertaining and relaxation.

The hydraulic bathing platform is a great way to enjoy the outdoors with convenient access to a hot water shower and tender area.

Flybridge

The flybridge area is the perfect place to take in the beautiful view while cruising. It has a sunbathing area with comfortable benches and cushions and a table for outdoor meals. The captain also has access to the all yacht's controls from the flybridge area.

— Exterior

Exterior Details

Uncompromising use of the highest quality materials in the design and manufacture of external components ensures their durability and longevity, and above all, safer and easier use.

Exterior details come together to create a unique and beautiful image that reflects the owner's taste and style.

Interior

Interior comfort

The interior of the yacht is designed in an elegant classic style to offer a luxurious and comfortable living environment using the highest quality and modern materials.

A width of 5.8 meters, combined with a length of 21.1 meters allow variants that include three or four cabins, each equipped with a bathroom and shower, plus a cabin for 2 crew members, completely separated in the bow section also equipped with a bathroom.

A modernly equipped salon and wheelhouse with side door and a fully equipped kitchen located at the entrance to the outer cockpit, with an open folding kitchen window that perfectly combines the salon and the outer cockpit into one special unit.

— Monachus 70 Fly

Salon & Wheelhouse

—
Salon is the main living space on the yacht designed in a comfortable classic style and consists of a kitchen, dining room and wheelhouse which is equipped with the latest navigation and communication systems.

— Interior

Engines

Powered by Volvo IPS

The standard application of the VOLVO IPS system with the 'sky-hook system' and automatically regulating interceptor stabilizers adds value to the smooth sailing and ensures practical docking control.

ENGINE (STANDARD)

Two engines VOLVO D13 – IPS 1200

Max speed: 31 kts

ENGINE (OPTIONAL)

Two engines VOLVO D13 – IPS 1350

Max speed: 33 kts

Two 13-liter, Volvo engines paired with Volvo IPS drive systems are responsible for fantastic driving performance and maneuverability, which, unlike classic propellers, reduce fuel consumption by up to 35%.

The Dynamic Positioning System (DPS) is a standard feature of this model, and is equipped with control IPS Joystick.
